

TIMMERS
MAINTENANCE

**“Timmers’
quality and
service are
exceptional.”**

THESE COMPANIES TRUST THEIR MAINTENANCE TO TIMMERS:

The Timmers maintenance team are licenced builders, now backed by our own superior, cloud-based project management system to add value to our clients.

Our system has Safety and Quality modules built in. It connects project details with front line team activities, where task details are logged and exchanged delivering SPEED, SAFETY and QUALITY in everything we do.

We can quickly tailor a job or task to its requirements with no paperwork, and full transparency around everything our workers are doing in the field. You can log in too, and see where we’re at on your job.

With real time information at our fingertips and all of the project intelligence in one place, you can count on Timmers to deliver your project to the most exacting standards

possible. Combined with our already legendary commitment to quality and efficiency and our 19 years’ experience, Timmers is now able to offer “next level” responsiveness and scalability.
